

2012 Clean Watersheds Needs Survey Summary for New Hampshire Wastewater and Stormwater Facilities

<i>Category</i>	<i>Category Description</i>	<i>2012 Monetary Needs</i>	<i>2008 Monetary Needs</i>	<i>Difference 2008 to 2012</i>
I	Secondary Treatment	\$313,690,949	\$449,551,910	<\$135,860,961>
II	Advanced Treatment	\$367,301,089	\$86,230,621	\$281,070,468
III-A	Infiltration/Inflow Correction	\$43,848,692	\$39,260,327	\$4,588,365
III-B	Major Sewer System Rehabilitation	\$139,831,155	\$161,142,369	<\$21,311,214>
IV-A	New Collectors and Appurtenances	\$122,338,826	\$58,824,376	\$63,514,450
IV-B	New Interceptors and Appurtenances	\$117,135,496	\$143,000,584	<\$25,865,088>
V	Correction of CSOs	\$605,803,850	\$280,859,706	\$324,944,144
VI-A	Stormwater Conveyance Infrastructure	\$134,200,350	\$50,721,233	\$83,479,117
VI-B	Stormwater Treatment Systems	\$39,319,640	\$10,286,146	\$29,033,494
VI-C	Green Infrastructure	\$57,082,137	\$1,664,616	\$55,417,521
VI-D	General Stormwater Management	\$41,074,583	\$1,952,468	\$39,122,115
Totals	All Categories	\$1,981,626,767	\$1,283,494,356	\$698,132,411

As our WWTFs and collection systems continue to age and NPDES permit limits continue to tighten, the dramatic increase in financial needs for advanced treatment and CSO corrections, along with the significant secondary treatment needs, sewer rehabilitation and new sewer needs and growing stormwater needs all reflect the dire state of the wastewater and stormwater infrastructure in NH.

For additional information on the wastewater-related needs data, contact Sharon L. Rivard, P.E. at (603) 271-2508 or Sharon.rivard@des.nh.gov

For additional information on the stormwater needs data, contact Barbara McMillan at (603) 271-7889 or Barbara.mcmillan@des.nh.gov

The complete 2012 CWNS Report to Congress will be made available as soon as Congress has reviewed and approved the document.
